STANDING ORDER

This matter arises sua sponte upon the need for the court to provide for notice by electronic transmission pursuant to Rule 9036 of the Federal Rules of Bankruptcy Procedure. Pursuant to Rule 9036, the court may direct that notice be sent by electronic transmission to entities entitled to receive notice who request in writing that notice be transmitted electronically.

Accordingly, it is ORDERED that whenever the Clerk is required to send notice by mail and the entity entitled to receive the notice has requested in writing as herein provided that, instead of notice by mail, the information required to be contained in the notice be sent by electronic transmission, the Clerk is authorized to provide notice to such requesting entities by means of electronic transmission by the Bankruptcy Noticing Center. Requests to receive notice by electronic transmission pursuant to Rule 9036 and this order shall consist of the party entitled to receive notice entering into a noticing agreement with the Bankruptcy Noticing Center requesting that noticing to such entity be provided by electronic transmission by the Bankruptcy Noticing Center.

This 15 day of June, 2000.
